Mobile App Usage

- **Availability** - Team players can mark their Availability for each match. the Captain or Co-captain can enter or edit any team member's Availability.
- **Lineups** - You can edit the lineup and keep it hidden indefinitely. Once a lineup is published, an email will go out with the lineup to the team and the players in the lineup can confirm themselves either in the email via a button, or on the App. When creating the lineup, TennisFolder will give some tips such as rating too high, wrong gender (mixed doubles), preferred or non-preferred partners (doubles), wrong play-type (if putting in a doubles played into a singles line), etc..
- **Food Assignments** - Optionally, you can make food assignments automatically for home matches. TennisFolder keeps track of what each player has already brought this season and tries to distribute the assignments in a fair fashion. You can also over-ride the assigned foods for any lineup.

EDIT MATCH

Only the Captain or Co-captain can see the lineup until it is PUBLISHED. It is considered in DRAFT mode until it is PUBLISHED. When the lineup is PUBLISHED, the Captain can choose who will be sent the email about the lineup. In the case of choosing "Notify The Team", everyone on the team will receive the lineup in email, but the players in the lineup will also have a YES and NO button to confirm themselves.

Here is an example of the email the players would receive with the lineup. If this was a HOME match, the food assignment would also be shown:

Your captain has created a lineup for the following match:
